MEMORANDUM FOR: Director of Operations
Project Contracting Officer

6 July 1956

REFERENCE : Memorandum for the Project Director, dated 2 July 1956, subject: "Receipt of Materials from Processing Site. HTAOC-4 (SAPC 7462)"

I assume that Mr. Lundahl's comments on material received from Eastman have been called forcefully to the attention of that company so the deficiencies can be corrected. This is a matter of real urgency since we should do everything possible to make sure that the next batch of material is handled properly.
